

**Bauknecht**  
GERMANY SINCE 1919

# THE AWARD-WINNING FORMULA

**Bauknecht epitomises true german heritage by adopting the famed bauhaus philosophy of “less is more”.**

For a century, this belief has formed the blueprint of all Bauknecht's designs in crafting every piece of innovation, through meticulous attention to detail and a passion for perfection. It is no wonder that Bauknecht has garnered numerous international awards in the past years, including:

- German Design Award 2018
- iF Design Award 2017
- Red Dot Design Award 2016
- Best of the Best, Kitchen Innovation Award 2018

# BREATHTAKING DESIGN

Germany is renowned for products of quality, but at Bauknecht, what makes our latest appliances special is the fact that they are inspired by the essential. Bauknecht represents a new generation in product design allowing all kitchen and interior design styles to be combined.

The new Built-in Collection, a stylish new suite of kitchen appliances that offers an outstanding combination of flexible features, proven performance and authentic design. The collection includes a new oven, microwave oven, induction cooktop and a range of hoods that have been designed to offer more sophisticated user experiences through advanced interfaces and features.

# CUTTING EDGE TECHNOLOGY

At Bauknecht, quality is shaped by innovation that sets out to find solutions for everyday life. Technology driven performance completes Bauknecht's story of excellence, a story rightfully honoured by prestigious industry recognition.

## POWERDRY TECHNOLOGY

The innovative PowerClean+ high-pressure water jet system powerfully removes even the most stubborn of soiling from dishes – making pre-rinsing unnecessary. Thanks to Bauknecht's PowerDry technology. The unique ventilation system draws humidity from the interior of the appliance using dual air circulation and condenses it. This allows all dishes to be cleaned and extraordinarily well dried in just one hour – making Bauknecht PowerDry dishwashers faster than all the others on the market. This was reason enough for the jury of the Kitchen Innovation of the Year 2014 Award to confer the "Consumer's Favourite Brand - Platinum" prize.

# THE BAUKNECHT BUILT-IN COLLECTION

The kitchen is the centerpiece of the modern household expresses personality and sense of style. With its new design line, the Bauknecht home appliances harmoniously blend with any fitted kitchen - while their clear contours and high-quality materials are self-assured. The new range of built-in appliances includes ovens, steam ovens, microwaves, induction hobs and hoods, as well as dishwashers, warming drawers, refrigerators, and a fully automatic coffee machine.

Multi-function Oven with Soft Closing

## Design

- Pull-down opening

## Control

- LCD knob control

## Cooking Features

- 16 Functions: Conventional, Grill, Turbo Grill, Forced Air, Eco forced air, Convection Bake, Warming, Slow Cooking, Rising, Maxi Cooking, Bread, Pizza, Meat, Poultry, Casserole, Pastry Cakes

## Caring Features

- Soft closing
- Fast preheating
- Cool door (triple door glazing)
- Child lock
- Delayed start
- Residual heat indicator

## Green Features

- Europe energy class A+
- No need to Pre-Heat
- Multi level cooking

## Specifications

- Capacity: 73L
- Number of shelf levels: 5
- Temperature setting: 50°C - 250°C
- Connected load: 3650W
- Socket / Fuse spur unit: 20A
- Length of power cord: 1350mm

## Accessories Supplied

- Standard wire shelf: 1
- Drip tray: 1
- Baking tray: 1

## Optional Accessories

- 1 pair of fully extendable sliding runners

## Appliance Dimensions

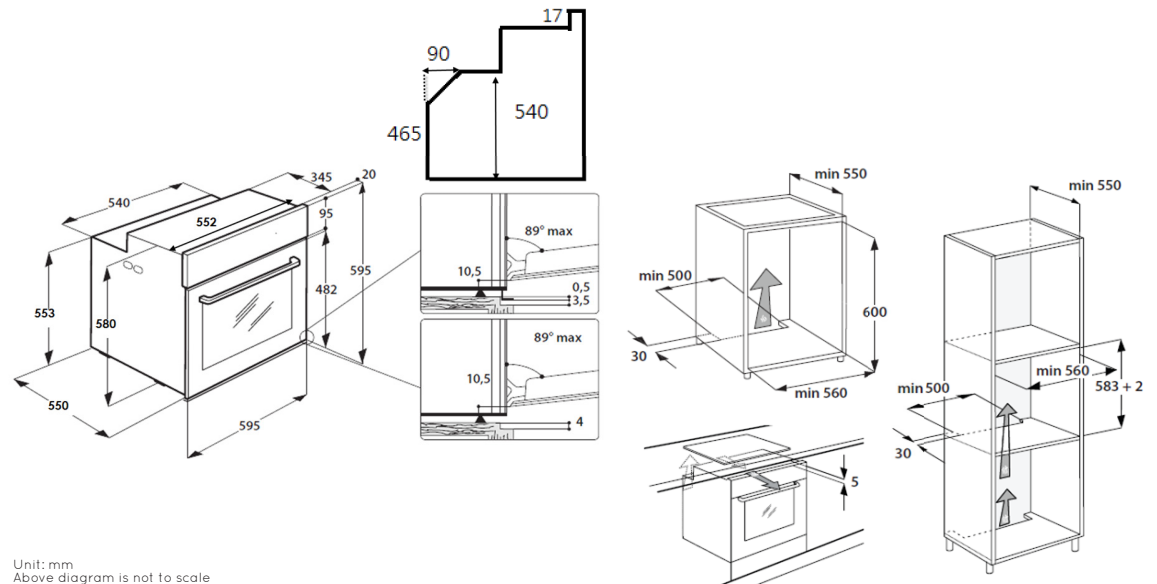

- 595H x 595W x 564Dmm

## Cut Out Dimensions

- 585H x 560W x 550Dmm
